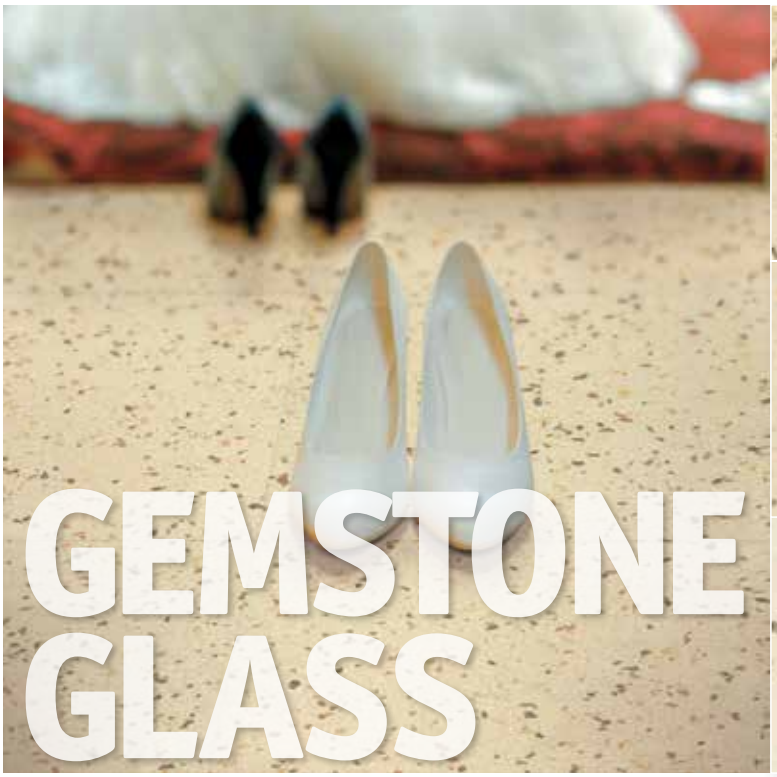
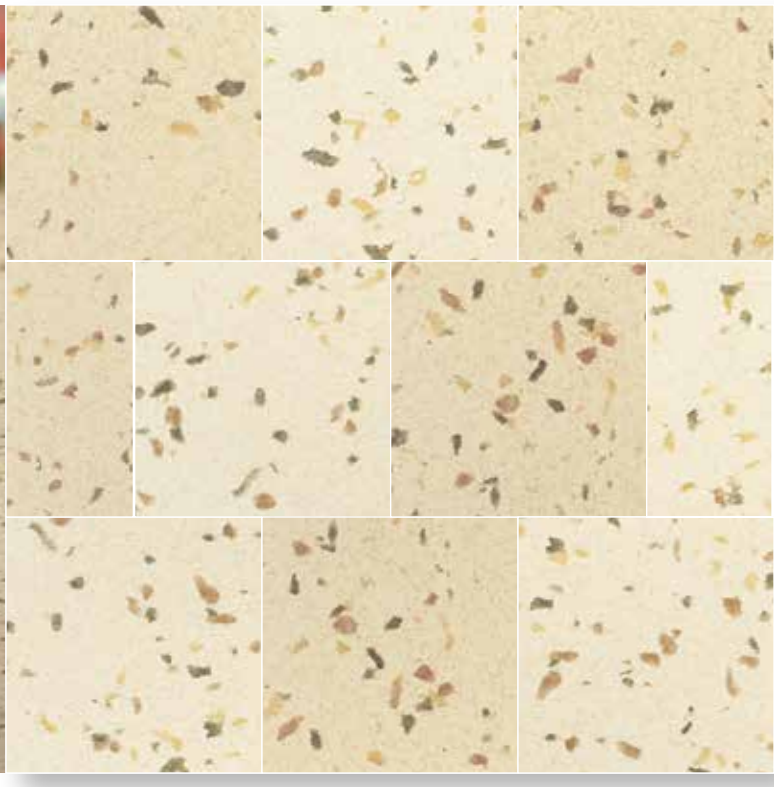
Introducing GemStone™, a new rich visual of 6 metallic colors and 6 glass colors that delivers glamour and character to any commercial space. Specify GemStone and you've offered your clients an upscale, high end interior floor at an attractive price point with the attributes of a premium resilient tile.

- Highest binder content for superior durability and easy maintenance
- Ideal for areas that do not receive constant routine maintenance
- Buffable finish allows maintenance with neutral cleaner and dry buffing
- Recyclable: contains post- consumer recycled content
- FloorScore™ certified
- Phthalate Free formulation
- Low TVOC emissions - <10µg/m^3
- ISO 14001 and ISO 9001 certified
- NSF 332 Gold certified
- Made in USA
- 16" x16" tile size
- 12 color options suitable for a variety of commercial applications
- Coordinating wall base, transitions and other finishing accessories available



GEMSTONE GLASS



GemStone glass offers delicate pastels with subtle glass-like shimmers that are purposefully created to give a space a calming feeling with hushed elegance and glamour.

CORTINA GRANDE

Cortina Grande , a solid vinyl tile, can increase productivity in high performance spaces by making people more comfortable and lowering maintenance costs and downtime. It can motivate and inspire through color, pattern and design. Cortina Grande is the perfect choice for heavy use areas like school foyers and hallways, convenience stores and healthcare facilities. The SVT construction allows it to withstand heavy foot traffic and requires easy maintenance, decreasing life cycle costs.

- Highest binder content for superior durability and easy maintenance
- Ideal for areas that do not receive constant routine maintenance
- Buffable finish allows maintenance with neutral cleaner and dry buffing
- FloorScore™ certified
- Phthalate Free formulation
- Low TVOC emissions - <10µg/m^3

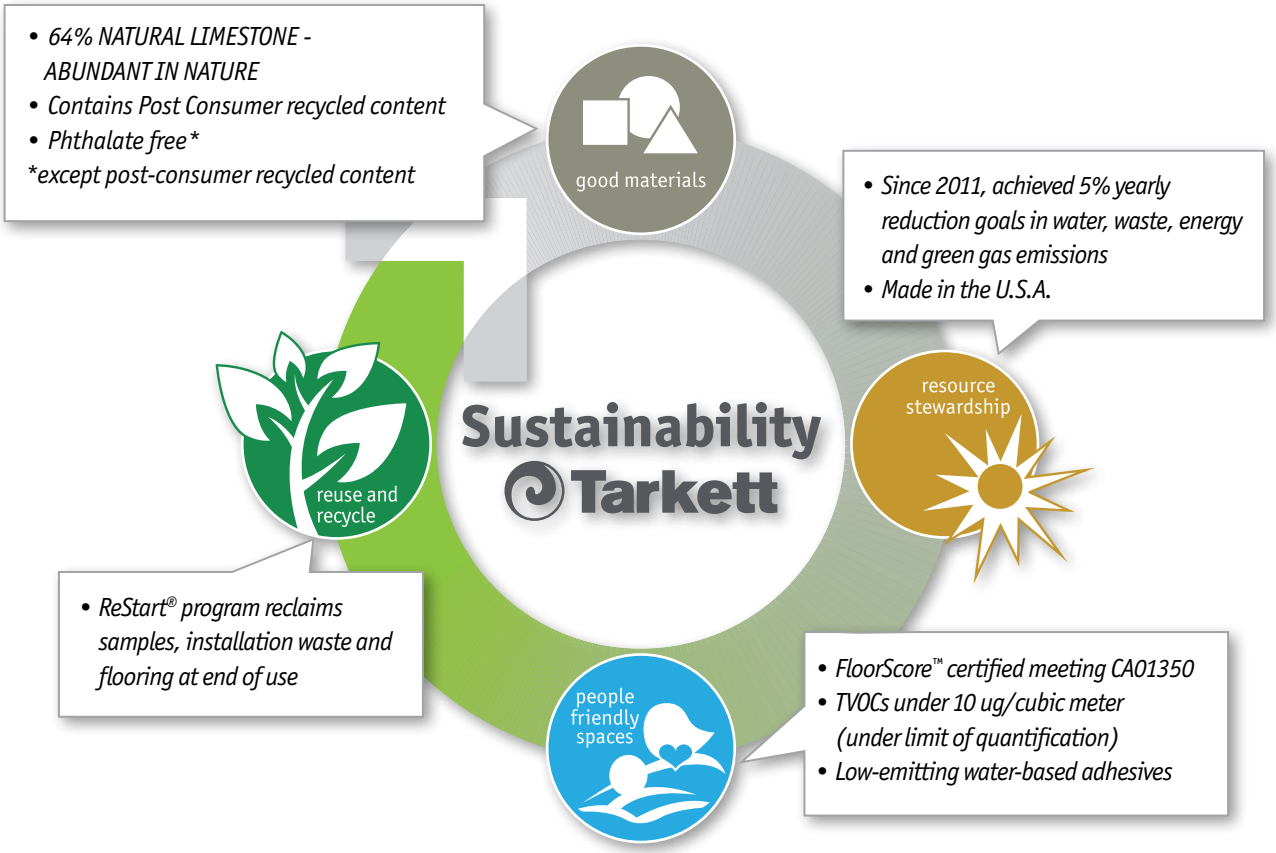
Tarkett ReStart® Reclamation Program

We are dedicated to eliminating landfill. And a great way to do this is to recycle our products and installed floors. Our ReStart Program reclaims samples, products and installation waste.

- The Architectural Sample Return Program repurposes unused and outdated samples returned from specifiers.
- Our Contractor Return Program reclaims clean installation flooring waste, which is incorporated into our new products.
- The Post-Consumer flooring recycling program effectively recycles all flooring, even with adhesive residue. In fact, using our SpraySmart adhesive reduces the amount of adhesive used and therefore makes the floor easier to recycle.

We continue to look at the economic, industrial and social frameworks that surround our products. While we constantly examine the methodologies and tools that allow us to reclaim and produce flooring, we strive to find innovative ways to reuse those materials and produce the high performance and lasting products we are known for.



Go to ecoScorecard™ for environmental credits information.
