QUICKSHIP

PROGRAM

CONTENTS

05 QUICKSHIP/QUICKSHIP EXPRESS

POWERBOND/MODULAR STYLES

- 14 BROWN/TAUPE
- 17 BLACK/GREY
- 24 BLUE
- 27 RED
- 28 ORANGE/RUST
- 29 GREEN
- 30 GOLD
- 30 PURPLE

BROADLOOM STYLES

- 86 BROWN/TAUPE
- 93 BLACK/GREY
- 99 BLUE
- 102 RED
- 103 GOLD
- 105 GREEN
- 110 ORANGE/RUST
- 112 PURPLE

140 CONSTRUCTION OPTIONS

- 142 DESIGN INNOVATION
- 144 TARKETT TAPE™
- 146 MOISTURE WARRANTY
- 148 MOISTURE MANAGEMENT
- 150 ENVIRONMENTAL STORY
- 152 RESTART®
- 154 INDEX

Our catalog is organized in a way to make your selection process easier. First we offer an overview of colors with eight color palettes, followed by product platforms – Powerbond®, Modular and Broadloom – arranged in alphabetical order.

From time to time, we may update our Quickship Program, so please visit tandus-centiva.com for the most up-to-date products.

Photos may not accurately depict color. Please order samples or see select samples in the Quickship Portfolio for exact product color.

QUICKSHIP PROGRAM

We know that demanding delivery schedules sometimes require floorcovering on short notice.

Tandus Centiva's Quickship Program is the only one that offers Powerbond®, Modular and Broadloom carpet together. We've got the colors, patterns and textures you need – FAST.

Throughout this brochure, specific styles/colors are identified by a Quickship or Quickship Express icon. You can also visit tandus-centiva.com to search eligible styles and order samples.

2017 POWERBOND / MODULAR QUICKSHIP PROGRAM

QUICKSHIP

- Up to 1500 sq. yds.*
- 24"x24" ethos® Modular with Omnicat Technology™ or Powerbond® Cushion
- Ready to ship in 10 business days

QUICKSHIP EXPRESS

- Up to 750 sq. yds.*
- 24"x24" ethos® Modular with Omnicat Technology™ or Powerbond® Cushion
- Ready to ship in 2 business days

*Except Plexus Colour IV which is a maximum of 500 square yards

All other backings or tile sizes less than 1500 sq yds will be turned in 15 business days or less.

2017 BROADLOOM QUICKSHIP PROGRAM

QUICKSHIP

- Up to 1000 sq. yds.
- Super-Lok backing only
- Ready to ship in 10 business days

CONSTRUCTION OPTIONS

All Tandus Centiva Powerbond® and Modular options are 100% closed-loop recyclable through our ReStart® Program and do not contain pesticides (antimicrobials) as part of our initiative to reduce chemicals.

We are also extending the warranties of our Powerbond and Modular products to a non-prorated lifetime limited warranty. For further details, view our warranties at tandus-centiva.com or contact our Tandus Centiva Technologies team.

Powerbond® Cushion (RS or Non RS) — A hybrid resilient sheet floor-covering. Closed-cell cushion contains up to 19% postconsumer recycled content. Overall product contains 7-33% recycled content with a minimum 7% postconsumer. Benefits include: superior performance in extreme traffic, energy savings (good thermal attributes), reduced slip/fall injury, excellent acoustic control and wall-to-wall impermeable moisture barrier, lifetime limited warranty.

ethos® Modular with **Omnicoat Technology™** — An application of a proprietary coating to the backing of ethos Modular. Omnicoat Technology provides an excellent chemical barrier, thus preventing any interaction between materials in the backing and the wide variety of components found on and within the flooring substrates.

ER3® Modular (RS or Non RS) — Industry's first 100% recycled content secondary backing. Minimum of 45% total recycled content, overall product 14-24% postconsumer, lifetime limited warranty.

Flex-Aire™ Cushion Modular (RS or Non RS) — Affordable closed-cell cushion for enhanced comfort and acoustic properties. Secondary backing contains 35% preconsumer recycled content. Overall product contains 21-38% recycled content with a minimum 5% postconsumer, lifetime limited warranty.

**RS is a peel & stick installation method. It is the lowest VOC adhesive system in the industry.*

POWERBOND

MODULAR

Super-Lok® was developed to provide customers with superior attributes to the standard industry backing systems. Super-Lok is the benchmark backing on many of Tandus Centiva's broadloom carpets and has met or exceeded all industry required testing. Super-Lok provides the following attributes — enriched synthetic latex, improved protection against edge ravel, improved protection against delamination, low Volatile Organic Compounds (VOC), excellent tuft bind, excellent rollability, easy to install, 10 year warranty.

LifeLONG® is a high-performance Tandus Centiva commercial broadloom backing system developed by Tandus Centiva Technologies. LifeLONG was developed to meet the demanding requirements of the commercial marketplace. LifeLONG is an available option for all styles constructed with the Super-Lok Backing System. In addition to providing the same attributes, LifeLONG also offers the following characteristics and benefits — recycled content (for LEED™ Certification), 20 year non-prorated warranty, improved lamination strength, increased edge ravel warranty, increased lamination warranty, passed Modified British Spill Test, maintains flexibility over a wide range of temperatures.

ErgoStep® backing is a high density polyurethane cushion. It was developed to provide customers with a product to satisfy installation requirements such as extra cushion comfort, and noise reduction. ErgoStep Backing is available for all Tandus Centiva broadloom products and provides the following attributes — cushion comfort, reduced fall impact, extended product life, minimized edge ravel, moisture management, enhanced thermal properties, and flexibility over a wide range of temperatures. ErgoStep contains a minimum of 30% postconsumer recycled content and overall product postconsumer recycled content of 8-10%. ErgoStep with BiOH™ adds 8.6% of bio-based content derived from soy bean oil. This custom backing option is available by special order and minimum yardage is required. 10 year warranty.

Crossweave® Woven technology was engineered for exceptional long-term performance. Tandus Centiva's Crossweave looms weave pile and backing yarns together to create one integral unit. Pile yarns are interlaced to provide woven carpets' famous resistance to delamination and yarn zipping. Every woven broadloom is constructed and crafted with superior performance features including exceptional seaming properties and dimensional stability, 15 year warranty.

CrossCushion® Woven provides added comfort underfoot and extends the life cycle of Crossweave Woven Technology. CrossCushion is an attached high-density polyurethane cushion. In addition to the attributes inherent in Crossweave woven construction, CrossCushion offers the following characteristics and benefits — reduced fall impact, enhanced acoustics, moisture impediment, reduced crushing, enhanced thermal properties. CrossCushion contains a minimum of 30% postconsumer recycled content and overall product post-consumer recycled content of 8-10%. CrossCushion with BiOH™ adds 8.6% of bio-based content derived from soy bean oil. This custom backing option is available by special order and minimum yardage is required. 15 year warranty.

DESIGN INNOVATION

ETHOS® MODULAR with OMNICOAT TECHNOLOGY™

ANOTHER FIRST FOR THE INDUSTRY

ethos® MODULAR WITH OMNICOAT TECHNOLOGY™

Omnicoat Technology is the application of a proprietary coating to the backing of ethos Modular tile. Omnicoat Technology provides an excellent chemical barrier, thus preventing any interaction between materials in the backing and the wide variety of components found on and within the flooring substrate. Through this barrier property, Omnicoat Technology serves to increase the compatibility of ethos Modular with adverse and minimally prepared substrates, allowing for installations over previously incompatible adhesive types such as general purpose, styrene-based, and multipurpose.

Used in conjunction with TarkettTAPE™, ethos Modular with Omnicoat Technology allows for immediate installation over adverse flooring substrates that previously required time-consuming and costly testing and floor preparation.

- pH, RH & MVER testing is eliminated²
- Install over pre-existing adhesive
- Priming not required for existing PSA meeting requirements (see website for complete list)
- Improved health, well-being & safety

² RH and MVER testing are eliminated provided that no free liquids are present and that no moisture-stained concrete is evident. In the event that free liquids and/or moisture-stained concrete are observed, a full assessment of the concrete substrate is required.

TARKETT TAPETM

A FLOATING INSTALLATION SYSTEM FOR MODULAR CARPET

TarkettTAPETM is for use with ethos® Modular with Omniccoat Technology™ and Flex-Aire™ Modular.

- TarkettTAPETM installed with ethos Modular with Omniccoat Technology requires no pH, MVER or In-Situ/RH testing provided there is no evidence of free liquids.
- TarkettTAPETM with Flex-Aire Modular can be installed at MVER ≤ 5.0 pounds, pH ≤ 9.0 and In-Situ/RH ≤ 80%.
- Odor free
- Sticks to the tile, not the floor
- Low VOCs
- Faster Installation

Supplied in self-wound perforated rolls with an outer diameter of 5" on a 3" inner diameter.

- Each tape unit measures 3" x 4" +/- 0.125" with notched perforations between each unit.
- There are 324 units per roll with a coverage area of 144 sq. yds/roll installed with 24" tile.
- Packaged from 1 to 16 rolls per box with a minimum order quantity of one roll.
- The tape unit is centered at the corner of the tile as to engage the inner section of the two adjacent and one opposing tile corners (See installation instructions for details).

TarkettTAPETM

One piece is applied to one corner of each successive modular tile.

Installation is very simple and free of any excessive waste. Self-wound rolls have no release liner to dispose of, nor the typical waste associated with the use of bucket adhesives.

The resulting installation is a floating floor that stabilizes itself through interactive forces generated through the attachment of adjacent tiles, while exponentially building as the floor coverage increases.

INSTALLATION METHOD*

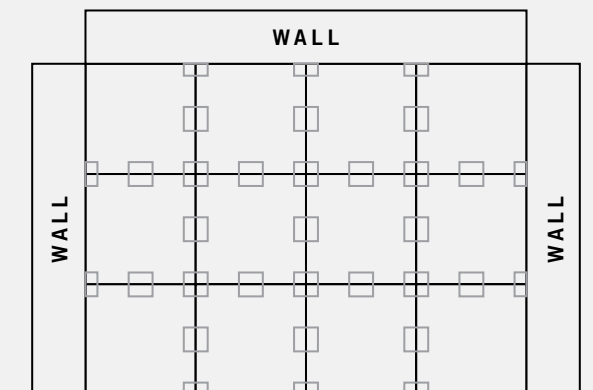

24" x 24" RANDOM, MONOLITHIC, QUARTER TURN MODULAR INSTALLATIONS

Use half tabs at walls

INSTALLATION METHOD*

36" x 36" RANDOM, MONOLITHIC, QUARTER TURN MODULAR INSTALLATIONS

Use half tabs at walls

Powerbond® Cushion installations utilizing #54 Seam Weld or C-XL Water-based Seam Sealer will no longer require MVER testing or RH testing, provided that no free liquids are present and that no moisture-stained concrete is evident. Testing for pH is still required for all Powerbond Cushion and must be 9.0 or less.*

* In the event that free liquids and/or moisture-stained concrete are observed, a full assessment of the concrete substrate is required per the installation instructions.

MOISTURE MANAGEMENT

Tandus Centiva is a name synonymous with industry-leading innovation, continuous improvement and products that demonstrate excellent performance. Developed in 2010, our powershield® product became a flooring solution for concrete substrates with a moisture vapor emission rate (MVER) of up to 10 lbs. and a relative humidity (RH) of up to 90%.

powershield is an underlayment intended for use with Tandus Centiva modular tile for moisture remediation.

powershield can be used over concrete flooring substrates in the following conditions:

- Moisture Vapor Emission Rate (MVER) up to 10 lbs
- Relative humidity of 90%
- pH up to 9

powershield offers the same technology for our modular tile that is found in the revolutionary closed-cell cushion of Powerbond®.

* When powershield is properly installed over concrete slabs according to previously mentioned specifications with Tandus Centiva modular tile, all applicable Tandus Centiva Modular Limited Warranty terms apply.

ENVIRONMENTAL STORY

Sustainability is an integral part of Tarkett's vision. We are committed to developing innovative flooring that enhances well-being and respects the environment. Our position as a global leader in the flooring industry gives us the unique opportunity to produce products that contribute to producing a better quality of life.

RESTART®

Since the early 1990's, Tandus Centiva has been collecting vinyl-backed flooring from the marketplace to recycle back into flooring. We were the first in the industry to reclaim and recycle soft surface flooring from the waste stream, the first to third-party certify a recycled content product and the industry's first to third-party certify a closed-loop reclamation and recycling program. Each day we recycle up to 90,000 pounds of flooring and waste, totaling more than 308 million pounds to date.

In order to sustain the recycled content of our products, we need your help in reclaiming material. The process is easy. Just contact your Tandus Centiva account executive and leave the rest to us.

HERE IS HOW IT WORKS:

Vinyl-Backed Carpet

- Call your Tandus Centiva account executive at 800.248.2878 and request a Material Return Form
- Submit a sample of product for approval
- Package materials securely for handling with a lift truck
- Ship materials with Material Return Request Number
- Notify us 24 hours before delivery
- Tandus Centiva receives the materials for reuse or closed-loop recycling
