2018 PROGRAM

CONTENTS

04 QUICKSHIP PROGRAM

POWERBOND/MODULAR STYLES

- 10 BROWN/TAUPE
- 13 BLACK/GREY
- 19 BLUE
- 22 RED
- 23 ORANGE/RUST
- 24 GREEN
- 25 GOLD

BROADLOOM STYLES

- 54 BROWN/TAUPE
- 61 BLACK/GREY
- 67 BLUE
- 70 RED
- 71 GOLD
- 73 GREEN
- 78 ORANGE/RUST
- 80 PURPLE

110 CONSTRUCTION OPTIONS

112 OVERCOME ADVERSITY

113 TARKETT TAPE™

114 ETHOS® WITH OMNICOAT TECHNOLOGY™

116 MOISTURE MANAGEMENT

120 GLOBAL IMPACT

122 INDEX

Our catalog is organized in a way to make your selection process easier. First we offer an overview of colors with eight color palettes, followed by product platforms – Powerbond®, Modular and Broadloom – arranged in alphabetical order.

From time to time, we may update our Quickship Program, so please visit tarketta.com for the most up-to-date products.

Photos may not accurately depict color. Please order samples for exact product color.

We know that demanding delivery schedules sometimes require floorcovering on short notice.

Tandus Centiva's Quickship Program is the only one that offers Powerbond, Modular and Broadloom carpet together. We've got the colors, patterns and textures you need – FAST.

Throughout this brochure, specific styles/colors are identified by a Quickship or Quickship Express icon. You can also visit tarketna.com to search eligible styles and order samples.

2018 POWERBOND / MODULAR QUICKSHIP PROGRAM

Q QUICKSHIP: POWERBOND/MODULAR

- Up to 1500 sq. yds.
- 24"x24" ethos® Modular with Omnicoat Technology™ or Powerbond Cushion RS, except for Abrasive Action II, Assertive Action, and Assertive Striae, which are only offered in Powerbond Cushion dry-back
- Ready to ship in 10 business days

Q-E

QUICKSHIP EXPRESS: POWERBOND/MODULAR

- Up to 750 sq. yds.
- 24"x24" ethos Modular with Omnicoat Technology or Powerbond Cushion RS, except for Abrasive Action II, which is only offered in Powerbond Cushion dry-back
- Ready to ship in 2 business days

2018 BROADLOOM QUICKSHIP PROGRAM

Q QUICKSHIP

- Up to 1000 sq. yds.
- Super-Lok® backing only
- Ready to ship in 10 business days

For other backing or tile size options, please contact your Tandus Centiva account executive.

CONSTRUCTION OPTIONS

All Tandus Centiva Powerbond® and Modular options are 100% closed-loop recyclable through our ReStart® Program and do not contain pesticides (antimicrobials) as part of our initiative to reduce chemicals.

We are also extending the warranties of our Powerbond and Modular products to a non-prorated lifetime limited warranty. For further details, view our warranties at tarkettna.com or contact our Tandus Centiva Technologies team.

Powerbond® Cushion (RS or Non RS) — A hybrid resilient sheet floor-covering. Closed-cell cushion contains up to 19% postconsumer recycled content. Overall product contains 7-33% recycled content with a minimum 7% postconsumer. Benefits include: superior performance in extreme traffic, energy savings (good thermal attributes), reduced slip/fall injury, excellent acoustic control and wall-to-wall impermeable moisture barrier, lifetime limited warranty.

POWERBOND

ethos® Modular with Omnicoat Technology™ — An application of a proprietary coating to the backing of ethos Modular. Omnicoat Technology provides an excellent chemical barrier, thus preventing any interaction between materials in the backing and the wide variety of components found on and within the flooring substrates.

MODULAR

ER3® Modular (RS or Non RS) — Industry's first 100% recycled content secondary backing. Minimum of 45% total recycled content, overall product 14-24% postconsumer, lifetime limited warranty.

Flex-Aire™ Cushion Modular (RS or Non RS) — Affordable closed-cell cushion for enhanced comfort and acoustic properties. Secondary backing contains 35% preconsumer recycled content. Overall product contains 21-38% recycled content with a minimum 5% postconsumer, lifetime limited warranty.

**RS is a peel & stick installation method. It is the lowest VOC adhesive system in the industry.*

Please contact your Tandus Centiva account executive for more information.

Super-Lok® was developed to provide customers with superior attributes to the standard industry backing systems. Super-Lok is the benchmark backing on many of Tandus Centiva's broadloom carpets and has met or exceeded all industry required testing. Super-Lok provides the following attributes — enriched synthetic latex, improved protection against edge ravel, improved protection against delamination, low Volatile Organic Compounds (VOC), excellent tuft bind, excellent rollability, easy to install, 10-year warranty.

LifeLONG® is a high-performance Tandus Centiva commercial broadloom backing system developed by Tandus Centiva Technologies. LifeLONG was developed to meet the demanding requirements of the commercial marketplace. LifeLONG is an available option for all styles constructed with the Super-Lok Backing System. In addition to providing the same attributes, LifeLONG also offers the following characteristics and benefits — recycled content (for LEED™ Certification), 20-year non-prorated warranty, improved lamination strength, increased edge ravel warranty, increased lamination warranty, passed Modified British Spill Test, maintains flexibility over a wide range of temperatures.

ErgoStep® backing is a high density polyurethane cushion. It was developed to provide customers with a product to satisfy installation requirements such as extra cushion comfort, and noise reduction. ErgoStep Backing is available for all Tandus Centiva broadloom products and provides the following attributes — cushion comfort, reduced fall impact, extended product life, minimized edge ravel, moisture management, enhanced thermal properties, and flexibility over a wide range of temperatures. ErgoStep contains a minimum of 30% postconsumer recycled content and overall product postconsumer recycled content of 8-10%. ErgoStep with BiOH™ adds 8.6% of bio-based content derived from soy bean oil. This custom backing option is available by special order and minimum yardage is required. 10 year warranty.

Crossweave® Woven technology was engineered for exceptional long-term performance. Tandus Centiva's Crossweave looms weave pile and backing yarns together to create one integral unit. Pile yarns are interlaced to provide woven carpets' famous resistance to delamination and yarn zipping. Every woven broadloom is constructed and crafted with superior performance features including exceptional seaming properties and dimensional stability, 15 year warranty.

CrossCushion® Woven provides added comfort underfoot and extends the life cycle of Crossweave Woven Technology. CrossCushion is an attached high-density polyurethane cushion. In addition to the attributes inherent in Crossweave woven construction, CrossCushion offers the following characteristics and benefits — reduced fall impact, enhanced acoustics, moisture impediment, reduced crushing, enhanced thermal properties. CrossCushion contains a minimum of 30% postconsumer recycled content and overall product postconsumer recycled content of 8-10%. CrossCushion with BiOH™ adds 8.6% of bio-based content derived from soy bean oil. This custom backing option is available by special order and minimum yardage is required. 15-year warranty.

BROADLOOM

WOVEN

Every project comes with its own unique challenges, and Tarkett is tackling them all. From high-moisture substrates to high pressure timelines, you'll find dependable solutions in each of our product categories, including soft and resilient surfaces, underlayments and adhesives. It's another way the Tarkett Solution SPECTrum has you covered.

Overcoming adversities, one installation at a time.

TARKETT TAPE™

TarkettTAPE™ is for use with ethos® Modular with Omnicoat Technology™ and Flex-Aire™ Modular.

Creating a floating installation system for modular carpet, use TarkettTAPE to install ethos® Modular with Omnicoat Technology directly over a variety of adverse substrates, including green concrete, concrete containing surface-curing additives, and chemically-abated concrete. When installed with TarkettTAPE™, ethos Modular with Omnicoat Technology is unaffected by moisture and pH, eliminating the need to test for pH, RH and MVER (provided that no free liquids are present and that no moisture-stained concrete is evident). All of which keeps your installation on schedule and your budget on track.

- TarkettTAPE installed with ethos Modular with Omnicoat Technology requires no pH, MVER or In-Situ/RH testing provided there is no evidence of free liquids.
- TarkettTAPE with Flex-Aire Modular can be installed at MVER ≤ 5.0 pounds, pH ≤ 9.0 and In-Situ/RH ≤ 80%.
- Odor free
- Sticks to the tile, not the floor
- Low VOCs
- Faster Installation

Supplied in self-wound perforated rolls with an outer diameter of 5" on a 3" inner diameter.

- Each tape unit measures 3"x 4" +/- 0.125" with notched perforations between each unit.
- There are 324 units per roll with a coverage area of 144 sq. yds/roll installed with 24" tile.
- Packaged from 1 to 16 rolls per box with a minimum order quantity of one roll.
- The tape unit is centered at the corner of the tile as to engage the inner section of the two adjacent and one opposing tile corners (See installation instructions for details). adhesive types such as general purpose, styrene-based, and multipurpose.

The only product to eliminate pH, RH and MVER testing.

With the TarkettTAPE system, no adhesive is required; therefore, no bond test is needed. TarkettTAPE provides a faster, simpler installation and is free from excessive waste.

**ethos® MODULAR WITH
OMNICOAT TECHNOLOGY™**

Omnicoat Technology is the application of a proprietary coating to the backing of ethos Modular tile. Omnicoat Technology provides an excellent chemical barrier, thus preventing any interaction between materials in the backing and the wide variety of components found on and within the flooring substrate. Through this barrier property, Omnicoat Technology serves to increase the compatibility of ethos Modular with adverse and minimally prepared substrates, allowing for installations over previously incompatible adhesive types such as general purpose, styrene-based, and multipurpose.

**Another
first for the
industry.**

Used in conjunction with TarkettTAPE™, ethos Modular with Omnicoat Technology allows for immediate installation over adverse flooring substrates that previously required time-consuming and costly testing and floor preparation.

- pH, RH & MVER testing is eliminated²
- Install over pre-existing adhesive
- Priming not required for existing PSA meeting requirements (see website for complete list)
- Improved health, well-being & safety

² RH and MVER testing are eliminated provided that no free liquids are present and that no moisture-stained concrete is evident. In the event that free liquids and/or moisture-stained concrete are observed, a full assessment of the concrete substrate is required.

MOISTURE MANAGEMENT

Since 1967, Powerbond® has been performing beautifully in some of the world's most high-traffic, demanding spaces and high-moisture conditions. Powerbond insulates the concrete floor from the atmosphere in the room, significantly slowing vapor transmission and hindering microbial growth. To save even more time and expense, installations utilizing #54 Seam Weld or CXL Water-based Seam Sealer will no longer require MVER testing or RH testing, as long as no free liquids are present and no moisture-strained concrete is evident.

Powerbond is impermeable to liquids.

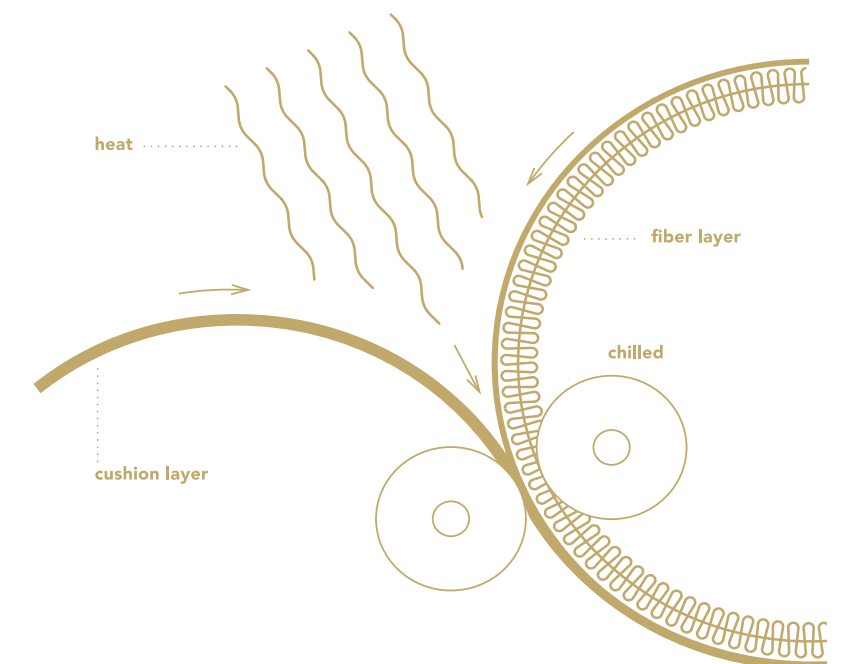

* In the event that free liquids and/or moisture-stained concrete are observed, a full assessment of the concrete substrate is required per the installation instructions.

Looks like carpet.
Performs like resilient.

Powerbond is a unique construction of nylon and closed-cell cushion. Heat and pressure 'powerbond' the wear layer to the cushion, producing a floorcovering that's integral, inseparable, impermeable—and downright incredible.

Powerbond offers:

- An impermeable, wall-to-wall moisture barrier
- Soil and stain resistance
- Enhanced acoustics
- Underfoot comfort
- Low VOC emissions
- Thermal barrier

Don't let
moisture
get you
down.

Powershield® is an underlayment intended for use with Tandus Centiva modular tile for moisture remediation. Developed in 2010, our powershield product became a flooring solution for concrete substrates with a moisture vapor emission rate (MVER) of up to 10 lbs. and a relative humidity (RH) of up to 90%. * powershield offers the same technology for our modular tile that is found in the revolutionary closed-cell cushion of Powerbond® and can be used over concrete flooring substrates in the following conditions:

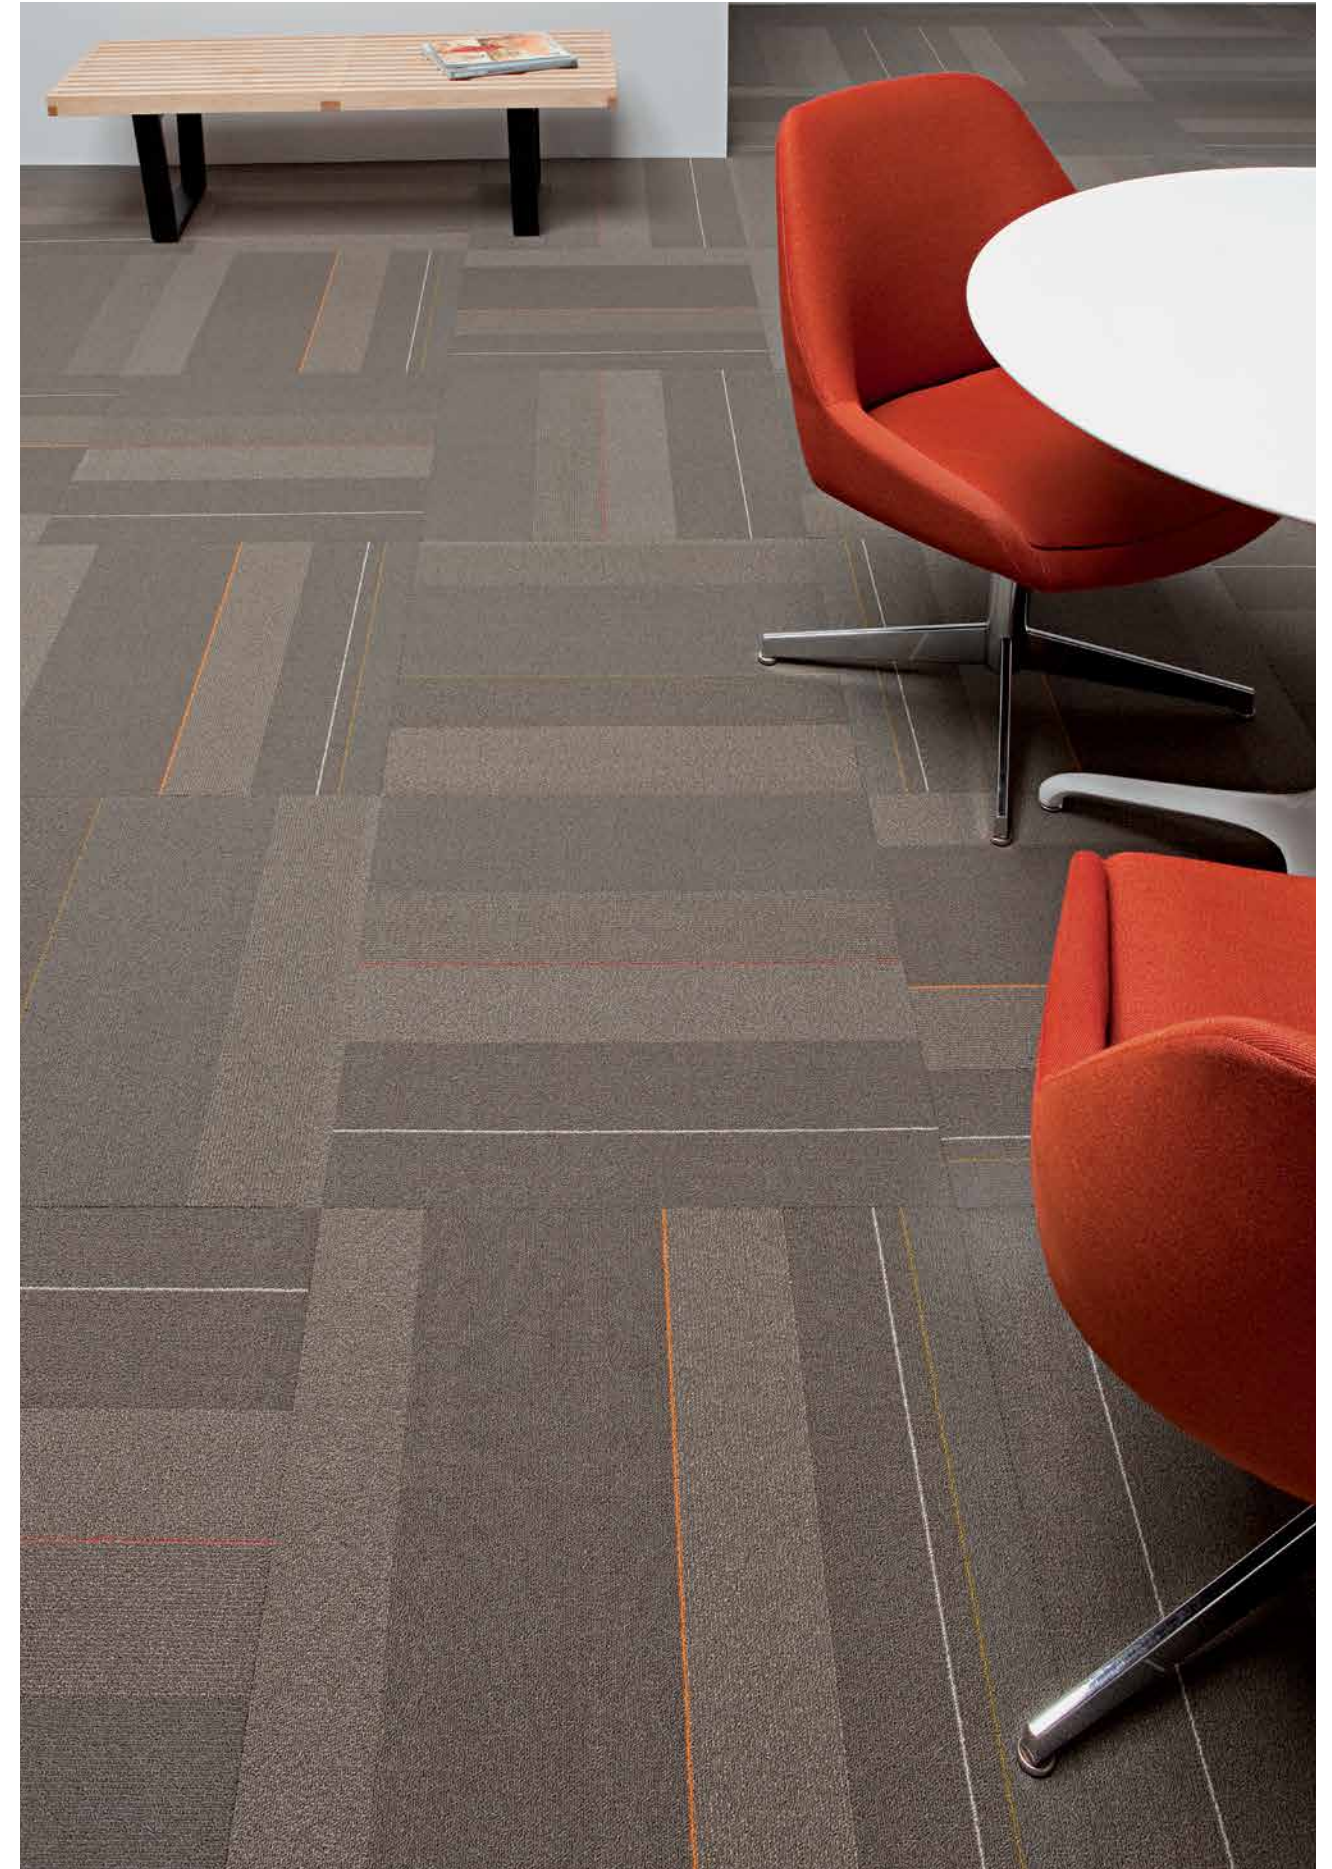

- Moisture Vapor Emission Rate (MVER) up to 10 lbs
- Relative humidity of 90%
- pH up to 9

* When powershield is properly installed over concrete slabs according to previously mentioned specifications with Tandus Centiva modular tile, all applicable Tandus Centiva Modular Limited Warranty terms apply.

A global impact.

Doing Good—Together is inspired by the world’s most ambitious sustainability goals and organizations. From our membership in the World Economic Forum to our participation in the UN Global Compact and our alignment with the UN Sustainable Development Goals, we’re committed to big ideals and positive action, working for the health of our products, our world, and a good future for all.

Thank you for helping us make real progress on a global scale.

We are the only North American flooring manufacturer to offer both commercial and residential products that are certified asthma and allergy friendly by the Asthma & Allergy Foundation of America.

We have the industry’s most ambitious inventory of Cradle to Cradle certified products covering multiple product categories, from resilient to soft surface, and from products to adhesives to maintenance. By 2020, 100% of Tarkett’s raw materials will be third-party assessed for health and planet impacts.

Our third-party verified Material Health Statements provide a true assessment of

product ingredients and their long-term effects on people and the environment—versus the simple ingredient lists provided by other manufacturers.

By 2020, 75% of our raw materials will be recycled, rapidly renewable, or abundantly available in nature.

We’ve designed products to perform better in the long term with simple wet or dry buffing and neutral cleaning products—which means TVOC emissions are among the lowest in the flooring industry and 10 to 100 times below the world’s strictest standard.

Our robust Take Back program is the oldest in the industry, building on a legacy of more than six decades of recycling.

We are collaborating on the Responsible Use of PVC Network to mobilize the industry so that together, we can improve the impact of our products on people and our planet.

Together, we’re making an impact.
