DISCOVER EASIUM

Tarkett Easium
So simple to install,
you won't want to stop

Tarkett Easium combines everything you've been looking for in one innovative, wood design floor. It features eight remarkably realistic wood designs that give you a choice between contemporary, rustic or scandinavian appearances. The robust, innovative construction delivers the best of vinyl and laminate flooring in a single easy-to-install product.

So stop dreaming about beautiful wood design floors and start bringing them to every room in your home.

TARKETT EASIUM 5 SO SIMPLE TO INSTALL, YOU WON'T WANT TO STOP

Contemporary Oak Grege
42297902

DESIGN & INSPIRATION

Contemporary Oak

Beautiful balanced and a perfect stage for timeless interiors. With subtle gradients from light to dark inside the plank, this contemporary oak is creating beautiful soft waves on the floor. Small details, which are never too obvious are completing this state-of-the-art design.

SUSTAINABILITY AND ENVIRONMENT

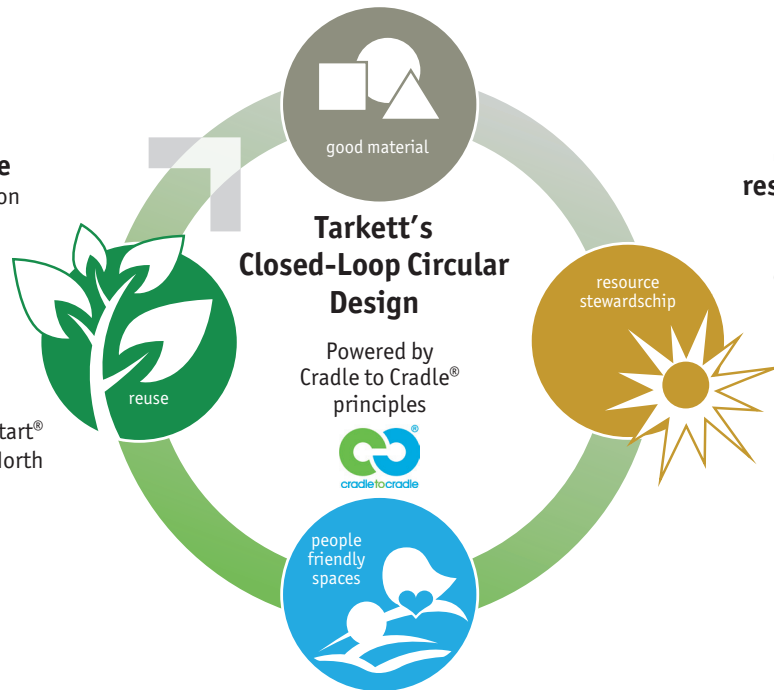

At Tarkett, we are moving towards a circular economy, where our products are designed to be returned, recycled, remanufactured or reused in a close loop system.

■ Use good materials

that are safe for people and the environment and that can be reused as ingredients in new products. Since 2010, 80%¹ of our total raw materials have been assessed in accordance with Cradle to Cradle® principles.

■ Recycling and reuse

Our circular economy vision is to develop closed loop recycling and reuse systems for all our products. To achieve this we are working in collaboration with our customers and partners through our ReStart® programs in Europe and North America.

■ Responsible use of resources in operation

57%¹ of manufacturing sites have implemented closed loop water circuits (or do not use water in their process). 67%¹ of our factories have improved their energy efficiency by reducing energy consumption per m² of manufactured products.

■ Products that contribute to wellbeing

At Tarkett, we have focused on reducing VOC emissions to contribute to a better indoor air quality. Tarkett's European sites are using phthalate free technology². The Phthalate-free plasticisers selected by Tarkett are approved for food contact containers and can be used for toys intended to be placed in the mouth by children. Easium has emissions 100 times lower than the strictest European standards and regulations.

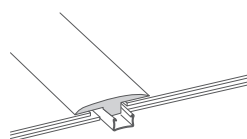

¹ 2015 figures.

² Except recycled content.

TARKETT EASIMUM 15 SO SIMPLE TO INSTALL, YOU WON'T WANT TO STOP

SO SIMPLE TO INSTALL, YOU WON'T WANT TO STOP

Tarkett is a global leader in innovative flooring solutions that generate value for customers in a sustainable way. Our balanced business model is supported by a decentralized organization and a shared commitment to sustainability, ethics and excellence.

We offer customers one of the broadest product portfolios in the flooring and sports surface industry, providing integrated and coordinated solutions to professional and residential end-users all over the world.

Our 34 industrial sites, 12,000 employees and sales in 100+ countries put us in close contact with customers and suppliers everywhere in the world. Globally, we drive operational excellence, commitment to our values and innovation, while empowering local teams to manufacture and design products and services suited to local customer needs and trends.

Tarkett is also committed to protecting our planet and bringing a sustainable lifestyle to all people, while addressing society challenges such as urbanization, population aging and resource scarcity. We aim to contribute to people's well-being and to the development of the circular economy powered by the Cradle to Cradle® principles, in partnership with external players.
