

# HOW CAN I CREATE AND ORDER MY FLOORCRAFT FLOORING ?

You have a specific bespoke project in mind and would like to call upon our Floorcraft service to achieve it? Or you wish to add features or logos to your flooring ? Here are the steps to follow.

**1**  
**Create** your own layout or share a clear image of your logo with your sales representative\*.

**2**  
**Contact** your sales representative with your project specification and select your floorings

**3**  
You will receive a **price quotation** for your project

**4**  
You will receive a **PDF colour visual design** for approval

**5**  
**Contact** your sales representative if you wish to receive product samples\*\*

**6**  
**Approve** the design and place your order

**7**  
Beginning of **production**

**8**  
**You can receive** your flooring pre-assembled & protected with an adhesive carrier tape

**9**  
**Your floor is ready-to-install**  
Please refer to installation guidelines before starting the process

\*Most of our resilient floorings can be used for your Floorcraft projects. Our glue-down Luxury vinyl tiles floorings, Heterogeneous Vinyl except for Omnisport Pure play and Homogeneous Vinyl materials except Safety. Please note that linoleum Floorcraft projects will need to be assessed prior to acceptance. For bespoke features, you can choose from our library of predesigned shapes or send us your specific bespoke design. Image should be without any copyright restrictions. \*\*A sample consists of a cut tile in the pattern required to show the colours and general design. Size is 300x300 max and cost is £40 each. Production may take from 6 to 8 week lead depending on project complexity and selected material. These timings are for guidance only, please check with your sales representative for specific timing. Larger projects will have to be evaluated individually.
